NADA Inc.

The Newfoundland Athletic Dog Association, Inc. is a member-based not-for-profit organization located in St. John's, Newfoundland. We focus on dog sports, in particular agility and obedience.

Our objectives are:

- To promote dog sports including but not exclusive to flyball and agility for all dogs regardless of pedigree.
- To encourage responsible dog ownership and sportsmanlike competition in dog sports.

We are a member of the Agility Association of Canada (AAC), The United Kingdom Agility International (UKI) and the North American Flyball Association (NAFA).

For more information about our offerings, including classes for public dogs in both agility and flyball, please visit our website:

www.nfldathleticdog.com

Special thanks to Carla and Geoff for allowing NADA to use their wonderful facility. Thank you for all your hard work and for making Shetland Greens a wonderful venue for NADA's agility events.

Description of Classes

Gamblers: This game consists of two parts, an opening and closing period, also known as the gamble. In the opening, the dog has a certain amount of time in which to do any obstacles the handler wishes and accrues points based on the obstacles completed. At the end of the opening period time, a whistle blows. The dog then has a small amount of time in which to complete a sequence of obstacles designated by the judge ahead of time. The handler must stay on the other side of the “gamble line” (the orange line on the course).

Event Sponsor	DPF Leading Agility	
Event Sponsor	Della & Darryl Nicholls	

Description of Classes

Standard: This is a numbered course consisting of at least one of each of the three contact obstacles (A-Frame, dog walk and teeter totter) plus jumps, tunnels, and weave poles. The dog must negotiate the obstacles in the correct order without any mistakes and within the standard course time.

Snooker: The course has four red jumps, each numbered 1, and 6 other obstacles, numbered 2 through 7. The dog accumulates points based on the obstacle's number. This also has two parts, an opening sequence and a closing sequence. In the opening sequence, the dog must complete a red jump, then any obstacle numbered 2 to 7, and repeat two more times with different red jumps.

Description of Classes

Jumpers: This numbered course consists of various types of jumps and tunnels. The dog must negotiate the obstacles in the correct order without any mistakes and within the standard course time. The course is a fast and twisty challenge for handlers and dogs.

Steeplechase: This class demonstrates the dog's ability to run and jump at high speeds while maintaining control on the A-Frame and weave poles. The dog must negotiate the obstacles in the correct order with sufficient speed and accuracy, such that the dog's time and the course faults added together don't exceed the allowable course time.

Special Thanks to Our Wonderful Volunteers and Trial Sponsors

NADA could not offer these events without the help of the wonderful volunteers that help us every trial. Also special thank you to our Trial Sponsors.
